

**MEDIA ADVISORY**

**November 13, 2018**

**Excelitas Technologies® to Showcase Laser Diode Array for  
LiDAR Applications at Electronica**

- WHO:** [Excelitas Technologies® Corp.](#), a global technology leader delivering innovative, customized photonic solutions, will highlight its detector and emitter solutions for use in a growing list of smart home and LiDAR applications at [Electronica](#) in Munich, Germany.
- WHAT:** The featured product at Excelitas Exhibit (Hall B3 / Booth 516) includes:
- [1X4 Pulsed Laser Diode Array](#): The 1X4 Laser Diode Array for LiDAR applications combines field-proven high-efficiency, multi-cavity laser chip technology with small form-factor surface mount device (SMD) packaging for applications requiring high reliability such as autonomous vehicles and drones. Its 1X4 linear configuration minimizes space requirements in the assembly to enable smaller, less costly optical components. The array is fully compatible with SMD pick-and-place and reflow soldering equipment, allowing it to seamlessly integrate into high-volume, low-cost assembly lines.
- WHEN:** November 13 – 16, 2018
- WHERE:** Excelitas Exhibit: Hall B3 / Booth 516  
Messe München, Munich, Germany

**About Excelitas Technologies**

Excelitas Technologies® Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and optical technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer products, semiconductor, energy and environment, industrial sensing & imaging, defense and aerospace, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies acquired Qioptiq in 2013 and now has approximately 6,500 employees in North America, Europe and Asia, serving customers across the world. Connect with Excelitas on [Facebook](#), [LinkedIn](#) and [Twitter](#).
