

**MEDIA ADVISORY**

**March 29, 2017**

**Excelitas to Showcase Weapon Sights at the Milipol International Exhibition of Homeland Security**

**WHO:** [Qioptiq](#), an [Excelitas Technologies®](#) Company and global technology leader focused on delivering innovative optical and photonic solutions, will highlight its wide array of weapon sights for defense applications at the [Milipol International Exhibition of Homeland Security](#).

**WHAT:** Solutions on display in Qioptiq's exhibit (booth 1820) include:

- **KITE In-Line Weapon Sight:** KITE In-Line is a compact night sighting system that is mounted on a weapon in front of a magnified day sight. It uses image intensification technology to amplify the small amount of light energy available at nighttime to present soldiers with a clear bright image of the night scene at distances beyond 1,000m.
- **KITE Weapon Mounted Night Sight:** A compact and lightweight military standard night vision sight, KITE is designed specifically for short-to-medium range surveillance and target engagement. The fully ruggedized and qualified product offers x4 magnification and a high-resolution image to allow effective operation during lowlight conditions. Image intensifier options including high-performance European or U.S. image intensifier tubes are available.
- **DRAGON-C 640 Uncooled Thermal Imager Multi-Purpose Thermal Sight:** The compact ultra-lightweight multi-purpose thermal weapon/surveillance sight provides all round capability for the dismounted close combat user. DRAGON-C 640 can be fitted with Qioptiq's LO GLINT coating technology to reduce sunlight glint and reflection as an option.
- **DRAGON-S (Sniper) Clip On Thermal Weapon Sight:** DRAGON-S provides snipers with 24-hour surveillance and target engagement capability for a range of optical dayscopes. It is factory set to eliminate the need for zeroing when the thermal sight is fitted and removed from the front of the dayscope.

**WHERE:** Booth 1820, [Sands Expo and Convention Centre](#), Singapore

**WHEN:** April 4 – 6, 2017

**About Qioptiq**

Qioptiq, an Excelitas Technologies Company, designs and manufactures photonic products and solutions that serve a wide range of markets and applications in the areas of medical and life sciences, industrial manufacturing, defense and aerospace, and research and development. Qioptiq benefits from having integrated the knowledge and experience of Avimo, Gsänger,

LINOS, Optem, Pilkington, Point Source, Rodenstock, Spindler & Hoyer and others. In October 2013, Qioptiq was acquired by Excelitas Technologies Corp., a global technology leader focused on delivering innovative, customized solutions to meet the lighting, detection and other high-performance technology needs of OEM customers. The combined companies have approximately 5,500 employees in North America, Europe and Asia, serving customers across the world. Visit <http://www.qioptiq.com> and <http://www.excelitas.com> for more information. Connect with Qioptiq on [LinkedIn](#) and [Twitter](#).

### **About Excelitas Technologies**

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and optical technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer products, semiconductor, energy and environment, industrial sensing & imaging, defense and aerospace, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies acquired Qioptiq, in 2013 and now has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world.
