Excelitas Technologies to Present at OPTRO 2012

What: Denis Boireau, EMEA Manager, Defence & Aerospace for [Excelitas Technologies](#), a global provider of innovative, customized optoelectronics to OEMs seeking high-performance technology solutions, will present a paper during a Sensors & Applications session at the [5th International Symposium on Optronics in Defence and Security \(OPTRO 2012\)](#) being held in Paris on Friday, February 10. At the session, Mr. Boireau will review the redesign of Excelitas' High Angular Resolution Laser Irradiance Detector (HARLID™) solution and discuss the critical need for this technology. Mr. Boireau's presentation will also explore some of the manufacturing challenges associated with this sensor and present the new techniques to improve it.

Now in its fifth year, OPTRO 2012 brings together leading engineers, researchers and scientists from around the world to discuss the latest trends and technologies in optronics, and how these solutions are being used in critical security and defence applications.

Who: Denis Boireau, EMEA Manager, Defence & Aerospace, Excelitas Technologies

Where: Organisation for Economic Co-operation and Development (OECD) Conference Center
2, rue André Pascal – F-75016, Paris, France

When: "High Resolution Sensor for Laser Warning: New Manufacturing Technologies"
Room 2: Sensors & Components – II
Friday, February 10th
9:20 a.m. CET

About Excelitas Technologies

Excelitas Technologies is a global technology leader focused on delivering innovative, customized solutions to meet the detection, lighting and other high-performance technology needs of OEM customers. From aerospace and defence applications to safety and security, industrial, medical lighting, analytical instrumentation, and clinical diagnostics applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 3,000 employees in North America, Europe and Asia, serving customers across the world.
