

Qioptiq's world-class laser technology now combines with Acal BFi's specialist technical integration and design expertise

WALTHAM, Mass., October 4, 2017 – Qioptiq, an [Excelitas Technologies](#) company, proudly announces a new distribution partnership with Acal BFi, the European leader in advanced technology solutions in photonics and lasers. This partnership effectively increases application support and enables more sectors to benefit from Qioptiq's leading laser technology across Europe.

Recognized on a global scale for its high-quality, ultra-stable solutions, Qioptiq designs and manufactures precision lasers to serve a wide range of applications across medical technology, life science, scientific research and discovery, advanced manufacturing, semiconductor, defense and aerospace.

Supporting customers with three decades of technical expertise

Acal BFi has supported customers in this market space with technical expertise for more than three decades, and is uniquely positioned in the market to advance customer designs with Qioptiq's leading-edge laser technology. Together, Qioptiq and Acal BFi can develop and provide complex, custom laser solutions quickly and efficiently.

Alex Schneider, Business Development Director of Acal BFi's Photonics Division commented, "Qioptiq is widely recognised for its innovative, high-quality solutions and technology. With our technical expertise, more customers can utilise and benefit from Qioptiq's high-end lasers in their applications precise, reliable measurements."

Josep Tienda, European Channel Sales Director, Excelitas Technologies (parent company of Qioptiq), added, "Acal BFi's photonics expertise is absolute. Combining its three decades of expertise with Qioptiq's high-precision lasers will directly benefit customers. More sectors and applications are now fully supported with leading-edge solutions and the specialist expertise to implement them effectively."

###

About Qioptiq

A proud Excelitas Technologies Company since 2013, Qioptiq is a photonics technology leader focused on delivering innovative, market-driven solutions to meet the high-performance lighting, detection and optical technology needs of today's global markets. We are committed to enabling our customers' success in applications across the fields of biotechnology, consumer products, defense and aerospace, medicine, scientific discovery, safety and security, automotive, energy and environment, semiconductor and industrial manufacturing. Through the acquisition by Excelitas, Qioptiq is now part of a network of 19 state-of-the-art photonics technology centers staffed with more than 5,500 photonics professionals across North America, Europe and Asia.

About Excelitas Technologies

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and other technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer, semiconductor, industrial, energy and environment, as well as defense and aerospace applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world.
