**Excelitas Technologies to Highlight UV Curing Solutions
at Assembly Show**
Booth #1738

WHO: [Excelitas Technologies® Corp.](#), a global technology leader delivering innovative, customized photonic solutions, will showcase its latest OmniCure® solutions at the [Assembly Show](#), October 24 – 26, 2017, Rosemont, IL (Booth #1738).

WHAT: Excelitas' solutions meet the lighting, detection, optics and other technology needs of OEMs across a wide range of industries. Products on display at the Assembly Show include:

- **[OmniCure LX500 UV LED Spot Curing System](#):** Available in either two or four LED head system configurations with up to 16W/cm² peak irradiance, the LX500 provides unmatched optical stability via Intelli-Lamp® LED technology for repeatable device assembly and reduced costs. OmniCure LX500 is ideal for use in medical devices such as catheters, cannulas, endoscopes and syringes; electronics such as OPU, smartphones and tablets; and general-purpose small component applications such as bonding and coatings.
- **[OmniCure AC5 Series UV LED Systems](#):** Designed for small area curing with a unique combination of high output LEDs and custom optics, [OmniCure AC550/P](#) and [OmniCure AC575/P](#) air-cooled UV LED curing systems provide high irradiance (14W/cm²), enabling manufacturers to achieve outstanding productivity. OmniCure AC5 Series Systems are designed to cure inks, adhesives and coatings in print, industrial and electronics manufacturing applications. The systems' high irradiance allows adhesive curing at a low temperature for sensitive components used in medical device and electronics manufacturing.
- **[OmniCure AC9 Series UV LED Curing Systems](#):** The innovative design of Excelitas' OmniCure AC9 UV LED Systems includes a high-performing, small form-factor, air-cooled solution to enable faster line speeds in industrial manufacturing and printing. OmniCure AC9150, AC9150P, AC9225, AC9225P, AC9300 and AC9300P UV LED curing systems feature advanced front-end optics to provide high power, high peak irradiance of over 14 W/cm², and exceptional uniformity for fast curing of inks, adhesives and coatings.

Company experts will be on site at the show or available by phone in advance of the conference to provide updates on its market-driven curing solutions.

WHEN: October 24 - 26, 2017

WHERE: [Donald E. Stephens Convention Center](#), 555 N. River Road, Rosemont, IL.
Excelitas Booth #1738.

About Excelitas Technologies

Excelitas Technologies is a photonics technology leader focused on delivering innovative, market-driven solutions to meet the high-performance lighting, detection and optical technology needs of today's global markets. We are committed to enabling our customers' success in applications across the fields of biotechnology, consumer products, defense & aerospace, medicine, scientific discovery, safety & security, automotive, energy & environment, semiconductor and industrial manufacturing. With the acquisition of Lumen Dynamics and Qioptiq in 2013, Excelitas Technologies now maintains 19 state-of-the-art photonics technology centers staffed with more than 5,500 photonics professionals across North America, Europe and Asia.
