**Excelitas Technologies to Showcase OmniCure UV Curing Systems
at MD&M Minneapolis**

WHO: [Excelitas Technologies® Corp.](#), a global technology leader delivering innovative, customized photonic solutions, will showcase its OmniCure® UV curing systems for medical device manufacturers at [MD&M Minneapolis](#).

WHAT: Excelitas designs and manufactures a variety of high-performance, customized solutions for demanding medical applications. Products on display at Excelitas' MD&M Minneapolis Booth #1729 include:

- [OmniCure LX500 UV LED Spot Curing System](#): Featuring up to four LED heads with up to 16W/cm² peak irradiance and proprietary feedback technology, the LX500 provides unmatched optical stability via Intelli-Lamp® LED technology for consistent and repeatable assembly of medical devices with lower costs. OmniCure LX500 is ideal for use in medical devices such as catheters, cannulas, endoscopes and syringes.
- [OmniCure S2000 UV Spot Curing Lamp Systems](#): Excelitas' S Series UV curing systems are ideal for precision adhesive curing in a variety of industries, particularly medical device bonding applications. The OmniCure S2000 provides fast and strong cures of UV adhesives, which results in superior product quality, rapid production and lower manufacturing costs.
- [OmniCure AC5 Series UV LED Systems](#): Designed with high-output LEDs and custom optics, the [OmniCure AC550/P](#) and [OmniCure AC575/P](#) air-cooled UV LED curing systems provide high irradiance (14W/cm²) for achieving faster line speeds and increased flexibility in medical manufacturing. The systems' high irradiance allows adhesive curing at a low temperature for sensitive components used in medical device manufacturing.

Company experts will be on site at the show or available by phone in advance of the conference to provide updates on its market-driven curing solutions.

WHEN: November 8 – 9, 2017

WHERE: [Minneapolis Convention Center](#), Minneapolis, MN. Excelitas Booth #1729.

###

About Excelitas Technologies

Excelitas Technologies is a photonics technology leader focused on delivering innovative, market-driven solutions to meet the high-performance lighting, detection and optical technology needs of today's global markets. We are committed to enabling our customers' success in applications across the fields of biotechnology, consumer products, defense & aerospace, medicine, scientific discovery, safety & security, automotive, energy & environment, semiconductor and industrial manufacturing. With the acquisition of Lumen Dynamics and Qioptiq in 2013, Excelitas Technologies now maintains 19 state-of-the-art photonics technology centers staffed with more than 5,500 photonics professionals across North America, Europe and Asia.
