

July 25th, 2017

EC declaration of conformity 

Scope

The purpose of this notice is to provide information regarding the environmental, health and safety impact of optoelectronic products manufactured by Excelitas Canada Inc.

EU RoHS

Optoelectronic products manufactured by Excelitas Canada Inc. identified as RoHS-compliant are fully compliant with the European Union's RoHS directive 2015/863/EU (*Restriction of the use of certain hazardous substances in electrical and electronic equipment*).

EU REACH

Optoelectronic products manufactured by Excelitas Canada Inc. do not contain any of the substances of very high concern (SVHC) identified in the European Union's REACH directive 1907/2006/EC (*Registration, evaluation, authorization and restriction of chemicals*). Compliance with REACH is verified on an on-going basis as new SVHCs are added.

OSHA / Safety Data Sheet

Optoelectronic products manufactured by Excelitas Canada Inc. require no Safety Data Sheet (SDS) because they meet the OSHA definition of an "article" found at 29 CFR section 1910.1200 (c). They are formed to a specific end use depending on their shape and under normal conditions of use they release NO hazardous chemicals and do not pose any physical hazard or any related health risk.

Laser safety

Optoelectronic laser products manufactured by Excelitas Canada Inc. are supplied with eye safety warnings in compliance with CFR Title 21 subchapter J part 1040.10, ANSI Z136.1-2007 and IEC 60825-1:2007.
