Excelitas Technologies® Corp. to Showcase OmniCure® UV Curing Systems, XLMii™ Fiber Optic Light Source and HeliX™ Silicon Avalanche Photodiode at MD&M West

WHO: [Excelitas Technologies® Corp.](#), a global technology leader focused on delivering innovative, customized photonic solutions, will showcase several new high-performance solutions for medical applications at [MD&M \(Medical Design and Manufacturing\) West](#) (Booth # 1833).

WHAT: Excelitas brings decades of experience to the design, manufacture and marketing of customized solutions for demanding medical applications. Featured products at MD&M West include:

- [OmniCure® LX500 UV LED Spot Curing System](#): Featuring up to four LED heads with up to 16W/cm² peak irradiance and proprietary feedback technology, the LX500 provides unmatched optical stability for repeatable assembly of medical devices with lower costs.
- [OmniCure AC9 UV LED Curing System](#): Delivering over 14W/cm² peak irradiance, the AC9 UV LED Curing System's innovative design includes a high-performing, small form-factor, air-cooled solution to enable faster line speeds and increased flexibility in medical manufacturing.
- XLMii™ Fiber Optic Light Source: Offering medical device OEMs simplified integration of LED illumination for endoscopy, surgical microscopy and surgical headlamps, the LED fiber optic light source features configurable components that can be quickly adapted to customer requirements. Product design time for the most critical medical lighting requirements can be significantly reduced, allowing for shorter time-to-market.
- [HeliX™ Silicon Avalanche Photodiode \(Si APD\) Module](#): Delivering high responsivity, broadband photon absorption (400-1100nm), wide dynamic range and linearity, and exceptional signal-to-noise ratio, the HeliX Si APD module is ideal for fluorescence measurement, distributed temperature sensing, analytical instrumentation, laser scanning ophthalmology and beyond.

Company experts will be on site at the show or available by phone in advance of the conference to provide updates on its market-driven photonic solutions.

WHERE: [Anaheim Convention Center](#), Anaheim, CA – Booth # 1833

WHEN: February 9 – 11, 2016

About Excelitas Technologies

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and other technology

needs of global customers. From biomedical technology to research laboratory, safety and security, consumer, semiconductor, industrial, energy and environment, as well as defense and aerospace applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world. Connect with Excelitas on [Facebook](#), [LinkedIn](#) and [Twitter](#).
