

## **Qioptiq Introduces Fetura+ High-Speed Zoom Lens System for Automated Imaging Applications**

*Enhanced Fetura+ Zoom Delivers Better Repeatability and Stability for Improved Reliability and Performance*

**Feldkirchen, Germany, October 31, 2016** – [Qioptiq](#), an [Excelitas Technologies®](#) Company and global technology leader focused on delivering innovative optical and photonic solutions, introduces Fetura+™ Advanced Zoom Lens. The enhanced, high-end Fetura+ enables high speed and reliable optical performance for the machine vision and inspection markets.

Ideal for high-throughput micro-inspection, non-contact dimensional measurement and general automated imaging applications, Fetura+ features a unique linear rail design coupled with precision optics to enable it to travel through the 12.5:1 zoom range in less than one second. Due to this unique design, Fetura+ offers a service life in excess of one million cycles and delivers exacting repeatability in any orientation.

With infinity corrected optics, Fetura+ is fully compatible to the [Optem FUSION Lens System](#) optics and accessories, making it even more flexible and versatile than ever. Fetura+ can also be customized with added features or modified housing requirements. With fully programmable operation, Fetura+ can be easily integrated as the optical core of a complete custom imaging assembly.

“Fetura+ represents the performance apex of zoom optical lens technology in the machine vision and inspection arena,” said Thomas Schäffler, Director of Optical Inspection at Qioptiq. “We are excited to enhance the popular Optem product line with the addition of the Fetura+ capabilities. The high speed and reliability of Fetura+, combined with its great flexibility, deliver a field-proven, off-the-shelf solution to meet today’s most demanding industry needs.”

The Fetura+ Zoom Lens will be showcased at Vision (Hall 1 Stand H66) in Stuttgart, Germany, November 8 - 10, 2016. For more information about Qioptiq, visit [www.qioptiq.com](http://www.qioptiq.com), or Excelitas, visit [www.excelitas.com](http://www.excelitas.com).

###

### **About Qioptiq**

Qioptiq, an Excelitas Technologies Company, designs and manufactures photonic products and solutions that serve a wide range of markets and applications in the areas of medical and life sciences, industrial manufacturing, defense and aerospace, and research and development. Qioptiq benefits from having integrated the knowledge and experience of Avimo, Gsänger, LINOS, Optem, Pilkington, Point Source, Rodenstock, Spindler & Hoyer and others. In October 2013, Qioptiq was acquired by Excelitas Technologies Corp., a global technology leader focused on delivering innovative, customized solutions to meet the lighting, detection and other

high-performance technology needs of OEM customers. The combined companies have approximately 5,500 employees in North America, Europe and Asia, serving customers across the world. Connect with Qioptiq on [LinkedIn](#) and [Twitter](#).

#### **About Excelitas Technologies**

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and other technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer, semiconductor, industrial, energy and environment, as well as defense and aerospace applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies acquired Qioptiq in 2013 and now has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world.
