

Excelitas Technologies Corp. Launches New Website at www.excelitas.com

Redesign Reflects Expanded Technologies, Brands and Capabilities with Improved Navigation

WALTHAM, Mass., August 13, 2019 – Excelitas Technologies® Corp., a global technology leader delivering innovative, off-the-shelf and customized photonic solutions, has launched a new corporate website at www.excelitas.com.

The new website provides a comprehensive and informative resource highlighting Excelitas' diverse range of product and technology offerings, expert custom engineering and manufacturing capabilities, extensive markets and applications expertise, and more. The site has been completely redesigned to

encompass the full breadth of the company's photonics solutions in electronics & power, lighting & illumination, optics & optomechanics and sensing & detection technologies to serve leading OEMs across a multitude of markets and applications. The new structure integrates all technologies from Excelitas' many well-recognized brands, including Qioptiq, OmniCure®, Axsun Technologies, X-Cite® and REO precision optical solutions.

"The new Excelitas.com website provides intuitive access to the company's groundbreaking photonic solutions for a wide range of applications," said Ada Nowensky, Director of Digital Marketing at Excelitas. "The rapid expansion of our technology portfolio over recent years through organic development and strategic acquisition has created a need for a more robust and comprehensive website to better represent the full scope of our capabilities and technologies as well as our expanding market reach. We have exciting plans to continue the expansion and functionality of the site in the coming months to better serve our growing customer base and I am confident that this site will be a stalwart bookmark in every photonics professional's browser," Nowensky concluded.

Fully compatible with today's mobile browsing, the new Excelitas.com is organized for streamlined navigation into the full array of Excelitas' commercial, defense and aerospace photonics products, brands and technologies. Other features include an informative careers section with global listings of current open opportunities, with the ability to apply online and submit resumes; a geographic dealer/distributor locator tool based upon Excelitas' product technologies, offering customers easy access to local or regional support; a comprehensive archive of press releases and featured articles for insight into Excelitas and its knowledge base; as well as listings of upcoming industry events where customers can engage Excelitas experts to fulfill their photonics technology requirements.

###

About Excelitas Technologies

Excelitas Technologies® Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, optronics, detection and optical technology needs of global customers. Serving a vast array of applications across biomedical, scientific, safety, security, consumer products, semiconductor, industrial manufacturing, defense and aerospace sectors, Excelitas Technologies stands committed to enabling our customers' success in their end-markets. Excelitas Technologies now has approximately 6,700 employees in North America, Europe and Asia, serving customers across the world.
