

SOFTWARE VERSION NUMBER

How to find the version number of your software.

1.1 CAMWARE

Select **? Help** menu and **About**

1.2 MATLAB

Execute the **ver** command in Matlab and paste the output in a text file named **ver.txt**. (See https://de.mathworks.com/support/contact_us/ts/popups/ver.html to get further information about the **ver** command). Add **ver.txt** to your support ticket.

1.3 MICRO-MANAGER

Start screen of Micro-Manager shows the versions number of the installed version.
